Sir, Madam,

I'm particularly interested and enthusiastic about the idea of presenting my application to you.

If you take a look at my curriculum vitae, you'll see that creativity is at the heart of everything I do. I began my studies with a DEC in multimedia integration and pursued an AEC in 3D production for video games, my aim being to combine these two courses in order to explore digital art. My experiences have ultimately taken me into different contexts, from 2D to 3D, from web programming to video games and much more.

The last few years as a 3D artist have enabled me to work with a wide variety of clients and to develop new creative tools.

I am highly motivated and excited by this position and I sincerely believe that I am the person you are looking for. I am available for an interview at a time that is most convenient for you and I thank you for your attention to my curriculum vitae.

Antoine Allard Choquette

📍 375 Lac-Vert, Hébertville

I'm passionate about digital art and 3D modeling. Unreal Engine, Blender, ZBrush, Maya, 3DS Max, Marmoset, Substance Painter for me are simply a whiteboard waiting for creativity.

I developed an interest in the web at a very early age. In high school, I taught myself the basics of HTML and CSS, but it was during my CEGEP techniques that my interest in the world of 3D emerged.

PROFESSIONAL EXPERIENCE

Cook Pacini Chicoutimi (2017 - 2020)

- Managing the opening and closing of the restaurant, ensuring that workstations are set up and prepared.
- Preparation of dishes for lunch and dinner, in compliance with food hygiene and quality standards.
- Work with the kitchen team to ensure coordination during busy periods.
- Responsible for cleaning and maintenance of equipment and work areas.

Merchandiser / Sales Labatt (2022 - Today)

- Maintain customer relations in the Lac St-Jean Sud region, ensuring quality customer service.
- Creation of attractive product displays to optimize visibility and sales.
- Manage price displays, ensuring the accuracy of the information displayed.
- Collaborate with the sales team to develop effective product promotion strategies.

QUALITY

- Passionate about digital art and 3D modeling, with in-depth knowledge of software such as Unreal Engine, Blender, ZBrush, Maya, 3DS Max, Marmoset and Substance Painter.
- Ability to solve problems effectively, showing initiative and creativity.
- Punctual, responsible and attentive to detail, guaranteeing quality work.
- Self-taught, with a constant desire to learn and keep abreast of new trends and technologies.
- Excellent verbal and written communication skills, facilitating collaboration with team members and communication with customers.
